

# The Career Resource Centre's “Best Picks”

## Is Further Education the Right Path for You?

### Here are some of our favourites:

#### **Guide to Professional Programs in Canada**

By: Sentor Media

This guide is a great place to start if you are looking into professional programs. It provides concise information on professional programs and their requirements for all of Canada. It also has valuable information for getting started in the research and application process, including personal statements, admission tests, and key resources for furthering your knowledge about applications and programs.

Section: Education - Directories/Programs

#### **Get Into Grad School: A Strategic Approach to Master's and Doctoral Candidates**

By: Kaplan

This great resource gives you strategic advice on finding the right program, getting financial assistance, preparing your application, and for admission interviews, as well as how to plan ahead for necessary prerequisites.

Section: Education - Directories/Programs

#### **How to Write the Perfect Personal Statement**

By: Mark Stewart

Personal Statements can be a difficult part of the application process. This book breaks down the process and sheds light on what the admission teams at universities are looking to see. This resource also provides valuable information on reference letters and who is the best person to ask for them, as well as how to make a positive and memorable impression at admission interviews.
