

“I truly believe that WLU’s Alumni Employment Service is a great tool for every Laurier graduate. Let me tell you why. After graduation I was searching for employment opportunities on my own, however, I found the process quite challenging. After a few unsuccessful months, I decided to contact the Career Centre’s Employment Specialist to assist with my job search. From that point on, I began to receive interviews and finally an offer of employment. Aside from helping me with the job search, the Career Centre staff assisted me in critiquing my resumé, cover letter, and conducting mock interviews. I found WLU’s Alumni Employment Service very beneficial and I urge every Laurier graduate to learn more about the Service.”

Ewelina Sinkiewicz MA Business Economics 2009

“After obtaining an HBA at WLU and then pursuing an MA at Guelph, I was working in an industry that was not a fit for me. Feeling frustrated, I began a career search on my own and also decided to sign up for the Alumni Employment Service. The Employment Specialist was very helpful in critiquing my resume and giving suggestions for enhancement. I really appreciated the time spent over the phone to discuss my job search criteria and how to portray my 'best self' on paper. As a result, I was able to find and secure my ideal career in a field related to my areas of study! Ever since, I have been referring other WLU alumni friends seeking jobs to the service. “

Jeannine Binns-Chapeskie HBA Sociology 2003

"WLU's Alumni Employment Service is a resource that every Laurier alumni is fortunate to have. The staff not only have a vast knowledge base of what is available, they put the effort and time in to find the most appropriate matches providing me with links, postings, support and feedback as I entered my journey of career change. The services offered are excellent for individuals just entering the work force, as well as those that have been in it for some time. This team recognizes the value of each alumni as both a future employee in the community and also as a person, making note of their interests and needs without pressure or persuasion. A rare group of people that I am pleased to have had the pleasure to be acquainted with."

Bessie Schenk HBA English and General Film Studies 2002

"Joining the Alumni Employment Service was both a decision and an investment that I could not have been happier making. I found the employment opportunities offered for recent graduates to be competitive, highly desirable, and above all - career relevant. Because the service is customized to meet the career interests of each person registered, it delivers personal results, and allowed me to get access to the best jobs in the fastest way. Every possible advantage is important when trying to secure that first post-graduate job, and being given access to a potentially "undiscovered" area of the job market (as several jobs provided by the Alumni Service are) is key. Best of luck to everyone, and thanks again to the wonderful staff at the Alumni Service for all their great work!"

Denis Kwok BBA 2007

“The Alumni Employment Service was a very valuable tool for me when starting my career. I learned a great deal about job searching, interview and resume techniques, and was given employment guidance on several occasions that allowed me to open a variety of different career paths. The staff genuinely cares and has your best interest at hand. I would strongly recommend this service for anyone who is a new graduate and looking to start their career.”
